- c. Do you think it's sensible to inform your parents about where you are going? Why?**

SAFETY TIPS

Here are some good rules to follow to protect yourself

1. STAY AWAY FROM STRANGERS

Who is a stranger? If you've seen someone hanging around your playground at school or in your neighbourhood, this does not mean that you know him or her. Although he has a familiar face, he is still a stranger to you!

2. GROWN-UPS SHOULD NOT ASK KIDS TO DO THINGS THAT THE OTHER ADULTS CAN DO FOR THEM

This means that you should not go, or get in a car, with an adult who, for example, asks you for directions. Grownups should not ask you to help them find a lost puppy or kitten, either. If someone asks you for help, say, “Wait here and I’ll check with my Mum or Dad.” Then go and get your Mum or Dad.

3. ALWAYS ASK YOUR PARENTS BEFORE:

- Going anywhere with anybody**
- Leaving the yard, play area, or going to someone’s house**
- Getting a ride home with someone other than your bus driver or your usual ride**

- **Getting into a car or going somewhere with somebody even it it's someone you know.**

4. ONCE YOU HAVE PERMISSION FROM YOUR PARENTS:

- **Tell them where you are going**
- **Tell them how you will get there**
- **Tell them who will be going with you**
- **Tell them when you will be back**
- **Get back on time and call to let them know when you will be back!**

5. IF SOMEONE FOLLOWS YOU ON FOOT OR IN A CAR, STAY AWAY.

You do not need to get near the car to talk to the people inside.

Now imagine you are a mother or a father. Your son/daughter is late from school because he/she spent some time playing at the park with a

friend on the way home. How do you feel? What do you say when your child arrives home? Remember how we give advice.

1. Read the following story taken from an environmental magazine and answer these questions:

- a. What is Bog Creek?**
- b. What was its secret?**

THE SECRET OF BOG CREEK

My name is Bob and this is my daughter Jeannie. A couple of times each month we travel up to the farmland of New Jersey to do a little fishing. We talk about school, friends, and sometimes even catch a few fish too!

For years, one of our favorite fishing spots was a stream near an old piece of land called Bog Creek farm. Although Bog Creek farm certainly looked normal, it had a dark secret.

Bog Creek farm looked like an average, everyday chicken ranch. However, some people used the farm as a place to dump their old chemicals and paints. These chemicals were dumped into a 150 foot long trench, about half as long as a football field, which stretched

across the property. We knew about Bog Creek farm's secret because we fished so close to the property. After a few years of secret dumping, a neighbor complained to local officials about the stinky smells that kept coming from the property. After talking it over with the neighbor, the officials decided to visit the owner of Bog Creek farm and check it out for themselves. The owner told the officials that people had dumped chemicals into the trench on his property for as long as he could remember. After listening to the owner's story, the officials asked the owner to bulldoze the trench and ship the dirt to a special storage area. The owner agreed. However, even after the dirt was shipped away, the stinky smells continued.

A few months later, things started to get a little strange. Whenever my daughter and I went on one of our fishing trips, we began to notice...

2. Now, can you guess what Bob and his daughter began to notice? Write your answer and finish the story.

Example: ...hundreds of dead fish floating in the water. Plants didn't grow fast, the soil and area was polluted because of the chemicals, people and animals near the area felt sick, etc. People took action to clean the environment...

C. Reading

Read the text and answer the True / False questions below:

Leatherback Turtles

All over the world, the species of sea turtles are endangered.

Endangered means that there are very few left, so they may become extinct.

The leatherback is the largest sea turtle and can grow to be about 2 meters long. The turtle's basic diet is jellyfish, although it eats fish and other sea creatures. They are born on land but live their lives in water. The male leatherbacks never return

to land after they are born and the females only return to lay eggs. There are many reasons why the leatherbacks have become endangered. One cause of endangerment is that many humans and animals think they are a delicious food. Another reason is that humans hunt the adult sea turtles all over the world because they use their skin to make bags and clothes.

More and more, people are using the beaches where sea turtles lay eggs; as a result they lose their habitat. Also the sea turtles are easily disturbed because of the noise and the lights. Another cause is irresponsible fishing. Fishermen often catch sea turtles in their nets so the turtles drown when that happens.

Finally, pollution in the oceans kills many turtles every year. Turtles confuse floating plastic garbage with jellyfish and eat the garbage. But they can't digest the garbage so they die.

True or False?

a. Leatherbacks like eating only jellyfish.

True - False

b. The male turtle never returns to land.

True - False

c. The female turtle lives only in the sea.
